POOL NOODLE HOCKEY

WORKS BEST

A group of at least 8 (for 2 teams of four). Indoor large space. Will not work well on carpet.

NEEDS

Pool noodles (cut them in half).	A puck - any smooth plastic container or object.
Tape (or furniture) to establish goals.	Gloves (option) for goal keeper.
Broom for goal keeper.	

THE GAME

The name nearly says it all... It's like normal hockey, but with pool noodles instead!

Replace the hockey sticks with pool noodles, the puck with a small plastic container or ball, and the goal keeper sticks and gloves with a broom and go to town!

Divide your group into two equal teams. Set up goals at either end of your space.

You could play first to a certain score or play a timed game.

Download the PDF for instructions on how to run the game and things that you will need for the game to work.
